

Stadium Gets Go Ahead

Has Substandard Soccer Field

BY PAM TROBY
The Planning and Zoning Commission has endorsed Plano Independent School District plans for an athletic stadium to be built at the Multi-Purpose Complex in northwest Plano.

The commission Monday night approved the site plan for the \$2.5 million project. Herschel Lindley of Schrickel, Rollins and Assoc., planners for the school district, told commissioners that a 11,900 seat

facility will be put out for bids in March. The stadium will be expanded to 20,000 seats as funds become available.

The 46-foot high structure will be constructed as a semi-bowl, Lindley said,

with the field five feet below grade. The field's artificial surface will be drained by a gravity flow sewer.

The planner said that the stadium is designed for football but that "it can be used sometime in the future

for soccer." Noting that the bid will contain many alternates, Lindley said the playing surface might be enlarged to soccer size if costs are not excessive.

In response to a question from Commissioner James Rice, Lindley said soccer can be played on a football-size field. He added that most soccer teams now play on football fields.

Primary access to the 184 acre site will be by Spring Creek Pkwy., Lindley explained, with westside traffic using Alma Rd. Negotiations with the city are now underway to provide paved access before construction at the site begins. Intra-site access will be provided by two roads, commissioners agreed, and the district will pave 1,700 parking spaces initially.

The commission also approved six other cases, including the site plan for the Plano Medical-Professional Center, unanimously. The medical center plans 12,401 square feet of medical and professional office space in the first phase of construction with an additional 6,910 square feet to follow.

The 1.6 acre site is located north of and adjacent to the Cloisters Square Shopping Center which also gained final plat approval Monday night. The 9.7 acre shopping

center is located on the northeast corner of FM 544 and Independence Pkwy.

A Minyard's Grocery Store, Ward Drugs and speculative lease space will be contained in the first stage of construction and 45,000 square feet of lease space will be built at a later date.

Four subdivisions also received plat approval. The final plat of the Woodhaven Addition was approved for 165 detached lots in a townhouse district. The 43 acre subdivision is located 1200 feet east of Custer Rd. on Parker Rd. and is bounded by Park Forest I on the east, Country Place Plano on the north and Parker Rd. on the south.

The 21 acre Castlerey Addition received approval for subdivision as 63 SF-2 lots. The tract is located on the southeast corner of the intersection of Park Blvd. and Stratford Dr.

Parker Road Estates West 3-E, a 46.8 acre tract bounded by Cross Bend Rd. on the north, Roundrock Tr. on the west and Silverstone Dr. on the east, and Block E of Los Rios Phase I received approval for minor adjustments to plats.

Not attending were Commissioners James Sides and Robert Pittman.

Bruce Yudin of 2417 Mollimar reported that his 1969 Oldsmobile was struck from behind by a light blue Cadillac or GMC vehicle on SH 289 about 3000 feet south of FM 544. He said the other vehicle was traveling at a high rate of speed, struck his car, veered off into a field and left the scene of the accident.

An unoccupied school bus was also involved in a collision Friday at 5:26 p.m. at the high school parking lot. The other vehicle was identified as a 1974 Chevrolet driven by Helen H. Carpenter of Shreveport, La.

Routine Weekend

For Firefighters

A young boy trapped in a tree, six small fires and two gasoline leaks kept Plano firefighters busy this weekend.

The fire department extinguished three auto, two grass and one trash blazes, according to Fire Marshall Bill Threet. The department also responded to an accidental alarm at the Chrysler Boat office on Dallas North Pkwy. and answered another call only to turn back when the fire was pin-pointed in Lucas which has its own fire department.

Auto fires were reported at 3416 Claymore on Friday at 5:41 p.m., at the intersection of 15th and the west frontage road of US 75 on Friday at 10:37 p.m., and at 1715 Avenue H on Sunday at 1:37 p.m.

Threet said a trash fire

was reported Saturday at 1:09 a.m. on Brand Rd. near the railroad tracks and that grass fires were reported on Mahoney Rd. two miles north of FM 544 on Saturday at 12:23 p.m. (county call) and in the alley of the 2800 block of 14th St. He said the cause of the alley fire was children playing with matches.

Gasoline leaks were washed away at the SH 5 and Parker Rd. intersection Sunday at 6:29 p.m. and on the Rowlett Creek Bridge over FM 544 on Monday at 7:44 p.m., Threet continued. He said the department also retrieved 11-year-old Greg Young of 2609 Avenue R from a tree at 1517 Williamsburg on Sunday at 1:39 p.m.

Nine ambulance runs were also made during the four day period.

Tax Cut Now Seems Likely

WASHINGTON (UPI) — President Ford, upstaging congressional Democrats, has proposed tax cuts that would place an extra \$200 or more in the paychecks of the average American family next year.

But Treasury Secretary William Simon said prior to Ford's Monday night address that the President would veto any tax cut bill that was not accompanied by a ceiling on federal spending.

A Democrat-dominated Congress, already formulating its own tax cut bill appears likely to ignore Ford's spending ceiling and pass its own tax cut plan,

setting up another possible veto confrontation with the President.

Action on tax cuts is expected today or Wednesday by the House Ways and Means Committee.

Ford's proposed permanent cuts — including an increase from \$750 to \$1,000 in the personal exemption for each taxpayer and dependent — would be about \$11 billion greater than the one-year 1975 tax cut rammed through Congress in record time earlier this year to fight inflation.

Ford's proposal is a \$28 billion reduction if you consider the 1975 cut as part of it.

County Revises New Judge Lists

The Collin County Commissioners Court worked on revising the county's list of judges and alternate judges for elections Monday

morning and is expected to have the list completed by their next meeting date, Oct. 13.

According to County Clerk James Webb, who has been working with the commissioners on the list revision, "a couple" of slots remain to be filled, and he expects final approval to be given next Monday-in time to name judges and alternates for the upcoming Special State Constitutional Election, set for Nov. 4.

Also during the commissioners' morning meeting, they approved the canvass of the Lovejoy Common School District Election, in which district voters approved the school board's authority to set local school taxes.

The approval was given last week by a narrow margin, with 152 voting in favor of granting the authority, while 147 voted against.

PARD Reviews Complex

Proposed recreational facilities will be reviewed by the City Council and Parks and Recreation Board in a joint session Wednesday at 7:30 p.m.

Officials will review plans for the city's second natatorium and for the tennis center and athletic fields to be built at the Multi-Purpose Complex. Grants for the complex will also be discussed at the work session which will be held in the Parks and Recreation Building.

To Alaska

Fleet Ends Journey

The last unit of a fleet of 15 ocean-going barges, laden with vital equipment for development of Alaska's Prudhoe Bay oil field, arrived at Prudhoe Bay after a dramatic voyage across 180 miles of icy water passage from Point Barrow, Atlantic Richfield Co. has announced.

"We are greatly pleased at the successful movement of the barges to Prudhoe Bay under abnormally challenging conditions," said Louis F. Davis, vice chairman of Atlantic Richfield. "Now, we are no longer dependent upon a 1976 sealift for having field production ready at 6000,000 barrels per day for the trans Alaska pipeline as scheduled in mid-1977."

The unusual contingent reached its destination during the past two days behind the path-breaking of the Coast Guard icebreaker Burton Island and the cutters Citrus and Storis.

Promptly on arrival, the huge barges, towed in by 15

tugboats, were maneuvered toward positions that would facilitate unloading of their cargo. Lightering barges began transferring equipment so that the principal barges could be brought into the shallow waters of the Prudhoe Bay dock for unloading there.

Sophisticated rigging gear, heavy duty crawlers and lift equipment were on hand for off-loading large building modules and a variety of other heavy cargo.

Oil field flow stations, a gas reinjection plant and an electrical generating system are among the facilities to be installed at the Prudhoe Bay field with the newly-arrived equipment.

After assembly from points as far away as Seattle and Houston, the barge fleet had taken position in late July west of Point Barrow, anticipating the annual summer movement of the Arctic ice pack out to sea. This movement allows a clear water route on to Prudhoe Bay, taken by

similar barge fleets each summer for the past eight years.

Unusually adverse weather patterns, however, kept the ice generally shore bound beyond the normal breakup period. Early last month, a brief opening permitted 10 barges to be brought through to Prudhoe. Then, following a weather shift that moved the ice pack out, accompanied by favorable forecasts, the 15 barges still maneuvering in standby positions were moved ahead past Point Barrow, then continued on to their destination.

It is anticipated, a spokesman said, that most of the tugboats will return westward beyond Point Barrow and ultimately back to their home ports. Those remaining at Prudhoe Bay, along with all the barges, will be kept in safe moorings for the winter.

Some three weeks ago, 19 barges, carrying general cargo, were directed back to Seward, Alaska, for movement of the equipment by railroad and truck to Prudhoe Bay. Some of this material already has arrived at Fairbanks and at Prudhoe Bay.

Jordan Lists Needs

Focus Of Problems Necessary

"Institutions of higher learning have problems caused by lack of clear understanding and apparent misapplication of Revised Order No. 4" relative to Affirmative Action Programs, President Bryce Jordan said this week.

The head of The Univer-

sity of Texas at Dallas was a speaker in a coordinated effort by several education associations to bring the problems into focus at the Dept. of Labor.

Jordan testified before a DOL Administrative Law Judge and a panel of federal compliance officers from the department.

He presented a case study to show what can happen to a university because of lack of clear, appropriately devised, and rationally interpreted procedures.

UT-Dallas has been faced "four or five times" with differing interpretations during two years of work on its Affirmative Action Program.

In his summary statement, Jordan said "this should demonstrate clearly and forcefully the problems caused to institutions of higher learning by the lack of clear understanding and apparent misapplication of Revised Order No. 4."

"Above all, it should be clear that some timely program for approval or disapproval of Affirmative Action Programs must be devised."

The American Council on Higher Education, Assn. of American Universities, National Assn. of State Universities and Land Grant Colleges, and the 371-member American Assn. of State Colleges and Universities joined in the testimony.

Jordan raised two specific points. Most of the problems so far have related to universities of large size or those with large federal research grants; small universities have so far "been largely ignored," he said. This is largely due to HEW workload.

But, said Jordan, many of the small universities will lack the resources to comply the detailed statistical and legal analysis required under present interpretations of Revised Order No.4.

Medical education centers have had special problems, Jordan said. "It is apparently the posture of (at

Thursday night, Oct. 9, at 7 p.m., at the McKinney Job Corps Center, according to program chairman Louise B. Sherrill, Plano councilwoman.

Representative Hutchison will be discussing the Texas Constitutional Revision

Amendment which will be presented to Texans for their vote on Nov. 4, and following his speech, there will be a question-and-answer period.

Chosen this summer to lead the Texas Republicans, Hutchison was first elected to the Texas House of Representatives, District 33Q, Dallas County, in 1972. During his first two years in Austin, he served as Chairman of the Standing Sub-Committee on Urban Affairs, the Intergovern-

mental Affairs, State Affairs, and the Rules Committees.

Following his re-election in 1974, he chaired the Constitutional Revision Committee and was Delegate to the Texas Constitutional Convention. Other Committees of which he was a member included Local Government, Submission and Transition.

Hutchison is a member of the Dallas law firm of Hutchison, Price and Boyle, specializing in the law of State and local government and finance.

His many honors include being named one of Top Ten Legislators in Texas by Texas Monthly Magazine in 1973 and 1975; selected as the Best Legislator from Dallas County by "D" Magazine this year. He was also cited by the State Bar of Texas for "Distinguished service to the people of Texas in the improvement of the administration of Justice," 1973 and 1975.

CCMA president Al

Plano Firm Has 'Red Dots' Ready

N.C. Jefferies Real Estate office has announced that they have a supply of "red dots" for free distribution.

The objective of the three-inch, round dot is to place them on outside windows or at the bottom of bedroom doors where small children sleep so that in case of fire, firemen can locate them and get them to safety quickly.

The dots are made of vinyl and have adhesive backing for easy removal.

Paul Mayfield, assistant fire chief, said that the fire department highly recommends the use of the

balls, however, he did suggest that if a family is moving, to please remove them from the premises. He said the reason for this is that if someone moves in without children and has a fire, the firemen may use unnecessary time hunting an occupant who isn't there.

The dots are available at the N.C. Jefferies office on the access road off Central at Exit 28. Ron Jefferies says the dots can be picked up at the real estate office, or if you will call 423-2521, they will even deliver them.

This is Fire Prevention Week and, according to the Plano Fire Department, a good time to consider all fire safety programs in the home.

The red dots help add extra protection and give firemen a clue to the home's occupants.

Saved soap bits for sudsy sponge

By Polly Cramer

Polly's Problem

DEAR POLLY — I have several cans full of bits and pieces of face soap. I would like to make them into regular size bars of soap to save money. How can I do this? — PATRICIA.

DEAR PATRICIA — Of course you can soften the soap bits and press them into cakes, but the following letter seems to me a great idea for making use of leftover soap pieces. — POLLY.

DEAR POLLY — I remember that not too long ago someone wanted to know how to use leftover soap scraps. I found an idea in an old magazine that I think is great. Use a razor blade to slit a small pocket in a hand sponge and then put the leftover soap bits in it. This sudsy sponge will not only be handy in the tub but for fast clean-ups or even scrubbing out the sink. — MRS. E.T.

DEAR POLLY — The following is not original but it might help Desperate with the odor in her refrigerator. Empty refrigerator and wash it all down (sides and shelves) and dry thoroughly. Place a flat box of clean kitty litter on the middle shelf and close the door. Leave for two days and the odor should be gone. — KARMA.

DEAR POLLY — After six years of washing diapers and never being satisfied with the results, I have finally found a way to get them looking like new again. Pre-wash in cold water using ONLY pine oil. Two ounces or less is sufficient. After diapers have been run through entire wash cycle, wash again in the hottest water available, using detergent and chlorine bleach. The oil loosens all spots and stains that would normally stay in if washed in hot water first.

Also, when you have any soft drink left that has gone flat pour into an ice cube tray and freeze. The result is POPS for the kids. My Pet Peeve is decorative self-sticking wall panels such as cork, mirror tiles, etc. that only stick for a matter of months. As soon as the weather turns humid the glue loses its sticking power and the tiles fall from the wall. We have to reglue ours at least three times a year. If the manufacturers insist on calling them self-sticking then I wish they would invent a stronger glue that would hold up in hot sticky weather. — HELENE.

DEAR HELENE — I felt just as you do the other day when one of the supposedly self-sticking adhesive backed picture hangers came off the wall and broke a prized heirloom plate. — POLLY.

DEAR POLLY — After baking cup cakes with no two ever looking the same, I started to use my ice cream scoop to level the cakes just right. After pouring cake batter into the pans I bump the pans up and down on the counter to level them. (Polly's note—I also do this as my mother said it removed the excess air from batter.) — KAREN

ARIES (March 21-April 19) Your mind will be on more serious matters today. Though you're tempted to play a bit, you'll soon find your heart isn't in it and get back to work.

TAURUS (April 20-May 20) A keen sense of business awareness is in your corner today. You do have a tendency to skim a little cream and spread it around. Curb that urge.

GEMINI (May 21-June 20) Today you may have to do a little thinking for someone you're fond of to keep them from making a bad move. Be firm. Save them from problems.

CANCER (June 21-July 22) Don't let anyone call you out of something which is due you. Speak up for your rights, because no one else will.

LEO (July 23-Aug. 22) Take a hard look at the way you manage your person affairs. Your financial footing in particular could stand some shoring-up.

VIRGO (Aug. 23-Sept. 22) Don't apply funds earmarked for necessary family expenses to the needs of yourself or your friends. Hands-off!

LIBRA (Sept. 23-Oct. 23) You'll have a serious matter to discuss today. If you start out by backing into the subject, you'll soon find it's best to talk straight.

SCORPIO (Oct. 24-Nov. 22) You know how to make the best of your opportunities today. One will drop into your lap. Others will be around, but you'll be the one to pick up the ball and run.

SAGITTARIUS (Nov. 23-Dec. 21) There's no lack of drive and ambition on your part today, but you must be wary of wheel-spinning. Make sure endeavors are worthwhile.

CAPRICORN (Dec. 22-Jan. 19) You're a successful team player today. Trouble is, you don't know how to enjoy the fruits of victory.

AQUARIUS (Jan. 20-Feb. 19) While you're not a freeloader, you might catch yourself trying to duck your half of the tab today. You'll create lasting wrong impressions.

PISCES (Feb. 20-March 20) Conditions are particularly favorable where work or career is concerned. This may not be too evident. Some of today's opportunities are only partially visible.

Your Birthday

Oct. 8, 1975
More travel than you've done in some time is likely for you this coming year. You will also renew an old friendship you had nearly forgotten.

UPI College Ratings

Buckeyes Rated Tops

By JACK SAUNDERS
UPI Sports Writer
NEW YORK (UPI) — Last week Ohio State took No. 1 from Oklahoma by a narrow 13 votes. This week it wasn't even close.

"We think we're good enough to be No. 1," said Buckeye coach Woody

Hayes after his team's 41-20 triumph at then-19th ranked UCLA. "And I think we're going to be No. 1. We won by 21 points. I think we should be No. 1, period." And they are—at least according to the United Press International Coaches Board.

Oklahoma's 21-20 nerve-

wracker over previously 16th-ranked Colorado, a week after the Sooners lost their No. 1 ranking by 13 points when they could only squeak by Miami of Florida, 20-17, sealed its fate, though both they and Ohio State are 4-0.

The Buckeyes assumed the top last week with their 32-7 win over North Carolina, but were thought No. 1 then by a narrow 20-17 margin.

This week, the choice was clear-cut as Ohio State pulled 37 of a possible 42 first

place votes and 413 points, 54 points ahead of Oklahoma, which received only two No. 1 designations.

Southern Cal and Nebraska, also 4-0, each decisively won to remain third and fourth, respectively. The Trojans, with two first place ballots, won on the road at Iowa, 27-16, and the Cornhuskers were a poor host to Miami of Florida.

The Canes gave Nebraska a battle but fell 31-16.

Texas didn't hurt itself

with its 61-7 rout of Utah State; the 4-0 Longhorns jumped two places to fifth as previous No. 5 Missouri fell out of the top 10 with their 31-7 shellacking by Michigan.

Texas A&M, 4-0, remained sixth with a 10-0 shutout of stubborn Kansas State and got the last No. 1 designation.

West Virginia, Colorado, Arizona State, Arizona and Notre Dame are 11th through 15th.

Canyon Creek Tourney Held

The Canyon Creek Women's Golf Association recently completed their club championship with the following results:

Championship flight winner was Karen Kline and runnerup was Margaret Beisheim. Consolation winner was Lavinia Zimmerman.

First flight winner was Bev Moore and runnerup was Doris Swindall. Consolation winner was Ruth Campbell.

Second flight champion was Helen Hickey with Mary Weise taking runnerup honors. Shirley Woodward won consolation.

Helen Struthers won the third flight with runnerup honors to Gavonna Mouser. Consolation winner was Helen Walters.

In the nine hole competition, Mary Sue Jordan won the first division and Martha Oberland was runnerup. Second division winner was Marilyn Hunn

and runnerup was Mary Lou Wright.

In lame duck competition, Sally Carter won the 18-hole division with a net score of 74. In the nine-hole division, Pat Gemko won with a net 38.

The winners received prizes at a presentation dinner, presented by tournament chairman Mmes. Marvin Kline.

Over Hurricanes

OJs Win 6-1

The Plano OJ's remain the only unbeaten team in the North Texas Women's Soccer Association following a convincing 6-1 win over the

The OJ's, sponsored by Dean Thompson's NorthPark Orange Julius, completely dominated the game offensively, keeping the ball in the Hurricanes' defensive area the entire game.

The OJ's halfbacks allowed only six penetrations by the Hurricanes. Halfbacks were Olivia Movassagh, Karen Sloan, Sherri Anderson, Rayla Allison, and Lisa Howell.

Plano fullbacks Margaret Carpenter, Alice Stroh and Donna Elias played well covering the defensive and midfield areas.

Scoring for the OJ's were Sue Mudie with three goals,

Rayla Allison with two goals, Sue Newman with one goal and one assist, Susie Hegg, one assist, Judy Thompson, one assist and Ruthie Stovall, one assist.

Florence Marks played well at both halfback and forward, containing a much larger Hurricane player. Goalie Carol Smith made several saves, allowing only one goal on a second half Hurricane breakaway.

The OJ's next opponent is Sunday at the Alma Road Sports Fields, 3:30 p.m., against the Farmers Branch Rowdies.

CONTEST RULES

Listed at the bottom of each advertisement on this page are games to be played during the coming weekend. Using the accompanying entry blank or a reasonable facsimile, list the team which you believe will win that game by the corresponding numbers. The tiebreaker is used only if there is a tie in the regular contest. One entry per contestant may be submitted, however, each member of a family may enter. Only one member of a family may win in any given contest. Submitting an entry is agreement that all decisions of the judges is final. When using a reasonable facsimile, entry blanks may not be machine reproduced. Only hand drawn blanks depicting the original blank are acceptable. All entries become the property of the Plano Daily Star-Courier and will not be returned.
